Manage online content for premier Minnesota charity golf tournament that has raised more than \$6.5 million since 1972 for people with developmental disabilities. Web site features online registration, real-time scoring, Twitter integration and sponsor database.

7 MINUTE MILES, LLC — EAGAN, MINNESOTA

Chief manager/president (2006–2010), <http://7minutemiles.com>

Founded technology consulting and web publishing company that specialized in Apple and open source tools. Managed a Seattle-based web and database server with multiple domains. Designed and published Minnesota golf, hockey, running and skiing web sites.

STUDIO 4 ENTERPRISES — SAINT PAUL, MINNESOTA**HIGH SCHOOL FOR RECORDING ARTS — SAINT PAUL, MINNESOTA & LOS ANGELES, CALIFORNIA**

Technology director (2003–2009), <http://www.studio-4.com> and <http://www.hsra.org>

Designed web-based student information management system for 200-student Minnesota charter high school founded by a former Prince protégé. Re-engineered entire technology infrastructure, including workstations, server, network and phone system. Created and implemented technology plan for Los Angeles expansion school and served as technology director for both schools.

NORTHWEST AIRLINES — EAGAN, MINNESOTA

Manager, line maintenance automation (2001–2003)

Senior technology specialist, fuel and corporate services (1996–2001)

Manager, general credit (1993–1996)

Senior collector, universal air travel plan (1992–1993)

New accounts clerk, freight credit (1991–1992)

Interned in the Refund and Credit departments. After graduating from college, re-joined Credit as a freight credit clerk, later promoted to collector. As one of Northwest's youngest managers, supervised staff of seven credit clerks and was responsible for 17 general ledger accounts with balances up to \$25 million and annual billings of more than \$530 million. Designed executive reporting system for \$175 million receivables financing project, ensuring "AA" certificate rating and reduced cost of funds. After earning an MBA, named technology specialist for the Fuel department, which had responsibility for \$1 billion annual fuel expense. Transferred from Fuel to Technical Operations, responsible for managing 95 servers and workstations worldwide. Built aircraft maintenance intranet reporting system that resulted in an annual budget savings of \$900,000.
